[sabamedicare.com](http://sabamedicare.com)

Hazmieh, Baabda, Lebanon

Supplied in Lebanon by SabaMedicare SARL. Manufacturer specifications follow.

SIMPLE OPERATION

Accuracy and simplicity

1. Collect Sample

2. Insert into Cuvette

3. Insert into Channel

3 Key Technologies INNOVATION

Build-in Battery

- Charge 3Hr ,run 30Hr non-stop

3-level Calibration System

- Assure reliable and accurate results

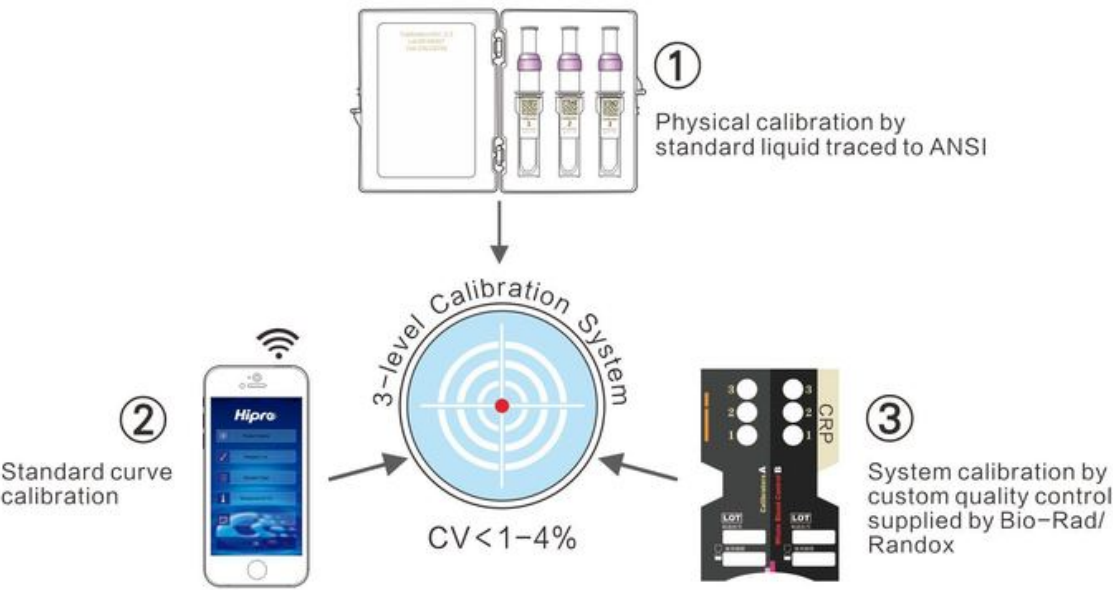

Multi-methodologies

- Reagent platform sharing

DETAILS

Convenient, Fast, and Meticulous

3-level Calibration System

| TECHNICAL DATA                                                                  |               |                          |
|---------------------------------------------------------------------------------|---------------|--------------------------|
| Dimensions                                                                      |               | Applicable Methodologies |
| W×D×H                                                                           | 410*355*280mm | Biochemistry             |
| Weight                                                                          | 5kg           | Nephelometry             |
| Operation                                                                       |               | Turbidimetry             |
| Power supply                                                                    | AC 110~265 V  | Immunofluoresence        |
| Sample test time                                                                | <5 minutes    | Calibration              |
| Patient Input                                                                   | Bar code,RFID | Hardware calibration     |
| Quality Control                                                                 |               | Network calibration      |
| Storage the newest reagents'curves updated by network connection to host server |               | Third party calibration  |

TEST MENU

Multiple available reagents

| Infection      | Cardiovascular disease | Reheumatism      |
|----------------|------------------------|------------------|
| PCT            | H-FABP                 | ASO              |
| Full range CRP | MYO                    | CRP              |
| SAA            | cTnI                   | Anti-CCP         |
| Renal-Function | HCY                    | RF               |
| HbA1C          | NT-ProBNP              | Autoimmunity     |
| CYS-C          | Lp(a)                  | IgA              |
| mAlb           | Lp-PLA2                | IgG              |
| NGAL           | CK-MB                  | IgM              |
| RBP            | D-Dimer                | Hormones         |
| β 2-MG         | Gastric Function       | HCG              |
| α 1- MG        | ★ HP                   | ★ LH             |

| ★ HPT          | ★ fPSA                 | more to come     |

**BRAND** 20 years of IVD experience; intellectual property rights;

### Technology and Innovation

- Reagent R&D Center in US;
- Instrument technology from Freiburg Germany;
- 52 international patents and 12 invention patents.

### Facility:

World-class high capacity manufacturing facility ( 10000 sq.m. )  
with 1500 sq.m. current GMP plants and strict quality control system.

### Production capacity:

- 150000 Tests/day;
- Certified by TUV Rheinland with ISO 13485 and CE marks.

## A1 [ INNOVATIVE DESIGN ] Automated Immunoassay System

**labONE™**

- Portable •
- Multi methodologies •
- Rapid quantitative results •
- Local language selection •
- Build-in Battery(optional) •

**Hipro®**

Hipro Biotechnology Co.,Ltd

Originate in Silicon Valley
